KRYSTAL MCKINLEY

SKILLS

12 years as a professional makeup artist

I began my makeup career with MAC Cosmetics in 2005 and have continued my training with various classes in Dallas and LA. Also skilled in light hairstyling and special effects.

Former photographer and studio owner for 6 years

I have a great understanding of how different lighting and environmental situations can affect the appearance of the products and techniques used on clients. Having experience doing makeup/hair while being behind the camera has allowed me a great advantage when working with photographers and in film and video production.

Makeup and hair styling on 12 films in Oklahoma

I continue to enjoy being part of such an amazing process. Creating the evolution of an actor's character and then seeing it all come together is incredibly rewarding.

I understand that I represent not only myself and my brand but the people that I work with and work for. I take great pride in being professional, prepared and consistently punctual.
